Summary

Java Backend Developer with 4 years of experience in designing, developing, and maintaining scalable software applications. Detail-oriented individual with exceptional communication and project management skills. Proven ability to handle multiple tasks effectively and efficiently. Recognized for taking proactive approach in identifying and addressing issues, with focus on optimizing processes and collaborating effectively in agile environments to deliver robust solutions.

Work History

Jul 2021 - Current

Software Engineer

FIS Global, Bengaluru

- Developed and maintained 25+ high-performance RESTful APIs using Spring Boot microservices for corporate banking, retail banking, mobile banking applications, virtual cards, and card on file serving a large user base, and enhanced existing APIs to improve performance and reliability.
- Led the end-to-end implementation of the ELK stack integrated with Apache Kafka for centralized logging and real-time monitoring, resulting in a 25% reduction in issue resolution time and proactive incident management.
- Enhanced service documentation and usability by integrating Swagger, providing clear and comprehensive API documentation for seamless collaboration across teams and improving developer efficiency.
- Contributed to code reviews and technical documentation, promoting best practices and knowledge-sharing to maintain a high standard of code quality.
- Diagnosed and resolved complex technical issues through detailed debugging and analysis, significantly improving system stability and reducing downtime.
- Coordinated SIT, UAT, and production deployment calls, providing technical expertise to clients during solution rollouts and optimizing deployment processes for maximum reliability.
- Contributed to front-end UI development and integration with ReactJS, enhancing user experience and ensuring seamless integration with backend services.

Jul 2020 – Aug
2020

Intern

Aniworks

- Gained hands-on experience in various software programs, increasing proficiency and expanding the technical skill set.
- Analyzed problems and collaborated with teams to develop effective solutions.
- Contributed to a positive team environment by collaborating with fellow interns on group projects and presentations on Web Development, Artificial Intelligence and Machine Learning.

Skills

- **Languages:** Java, Python
- **Frameworks/Library:** Spring Boot, gRPC, ReactJS
- **Tools:** Git, Jasper-Soft Studio, Minio, Redis
- **Database:** PostgreSQL, MySQL
- **Messaging & Monitoring:** Apache Kafka, NATS Jet-Stream, ELK Stack

Education

2017-07 - 2021-07 **Bachelor of Engineering: Computer Science and Engineering**
Sri Siddhartha Institute of Technology - Tumakuru, Karnataka

Accomplishments

Above and Beyond Individual Award FIS Global (Q1 2024)
Recognized and awarded for outstanding performance and unwavering dedication to the successful delivery of critical projects.
